New Kindergarten School Building

Secondary Level School Building

NVESS Programs

Montessori Program: NVESS is starting full-fledged Montessori based kindergarten program from the academic year 2074.

Pre-primary Program: We have pre-primary (Nursery, LKG, UKG) kindergarten program with all the required facilities. Here children of age 2.5 to 5 years learn as they play. We nurture individual child and lay foundation for his/her development. We have well-equipped outdoor and indoor play stations and laboratory for children.

High School Program: We have been conducting the high school program (class 1 to 10) since last two decades and have been performing consistently well in SLC.

HSS Program: We are planning to start higher secondary program (+2 program) from the new academic year 2074.

Our Teachers

We have dedicated, experienced and qualified teachers. They are passionate about teaching and dedicated to impart high quality academic teaching and learning. We use student-centric approach in our teaching technique using modern teaching aids. We have a small student-teacher ratio (15:1) to ensure that each child receives maximum care and guidance from teacher. We provide a nurturing, warm and conducive environment to your children.

Our Facilities

Our school occupies more than 8000 sq. meter land and is undergoing massive restructuring work to add new infrastructure and facilities to foster the academic as well as extra-curricular learning of students. We provide following facilities:

Lunch and Snacks

We are constructing new cafeteria where all students and staffs will be served with snacks and lunch at reduced cost. Considering the dietary requirement of the kindergarten students, we are constructing a

separate cafeteria for them where they will be served with snacks, lunch and fruits as per the diet routine prepared by dietician.

IT Facilities

We are constructing a state-of-the-art computer room with high speed internet connection where students will be trained about the application and use of computers.

Library

A new library with all the required facilities for reading and learning is undergoing construction. The library will be equipped with computers with internet connection, e-book, magazine, newspapers, film CD and music CD.

Laboratory

We have science laboratory (physics, chemistry & biology) equipped with all the necessary facilities.

AV Room

We are preparing an audio-visual room with all the required facilities such as LCD TV, digital multimedia projector, speaker and mike.

Sports and Games

Playground for football, volleyball, basketball and table tennis are undergoing construction. We have already established the outdoor and indoor play station for kindergarten students where students enjoy and play while studying.

Transportation

We provide the transportation facilities to the needy students. We focus on safety of students while providing this service. Each vehicle is guarded by an adult beside the driver to take care of children while embarking and disembarking from vehicle.

Music and Dance Room

We are constructing a separate room for music and dance equipped with all the required musical instruments. Students can learn and practice music and dance under the supervision of musician and dance master.

Our Curriculum

In kindergarten level, we design a curriculum to teach a range of subject areas through letters and literacy to math and music and art and science.

Our Management Team

NVESS School is managed and run by professional team consisting of:

1. Dr. Iswor Bajracharya, CEO

PhD in Mechanical Engineering

Experience: More than 10 years teaching experience in engineering campuses and colleges
Currently working at Nepal Academy of Science & Technology

2. Mrs. Sarita Bajracharya (Bindukar), Principal

Master in Management Science

Experience: More than 13 years experience in teaching and school management

3. Anil Bindukar, Vice Principal (Secondary Level)

Master in Management Science

Experience: More than 7 years experience in teaching and school management

4. Hem Prabha Pakhrin, Vice Principal (Primary Level)

B.A. in English, Darjeeling, India

Experience: More than two decades of teaching experience and school management

Advisors

1. Dr. Nawraj Bhattarai

Assistant Professor, Institute of Engineering, Pulchowk Campus, Tribhuvan University

2. Shree Krishna Ghimire

Proprietor, Valley Cold Store

3. Hari Krishna Rawal
